**Your First Choice
For CPM Rental In
Southern Saskatchewan**

What Is CPM?

Continuous Passive Motion (CPM) is used as a postoperative therapy to provide the knee joint with a prescribed, passive range of motion (ROM) -without patient effort- for an extended period of time.

Significant benefits of continuous passive motion include:

-  Helping to prevent joint stiffness while increasing ROM
-  Promote the joint capsule and soft tissue healing process
-  Reduce swelling, pain and scar tissue adhesion

The physiological benefits of CPM result in faster recovery times, improved function, decreased rehabilitation time and less complications.

Ask your surgeon, doctor or healthcare provider for a referral

Why Choose HealthWorks?

-  Every CPM unit is set up for your individual needs
-  Professional therapists on staff
-  Easy to use OptiFlex machines
-  Home delivery and set up available (fee may apply)
-  Large number of CPM units for rent
-  Physiotherapy, Massage Therapy and Acupuncture available

How To Rent a CPM

-  Obtain a referral from your surgeon, doctor or healthcare provider
-  Call HealthWorks at 306-525-0007 to arrange a CPM
-  Set up a time to have the machine fitted to your body
-  Rent by the week or month
-  Easily and quickly extend your rental period if needed
